

COOKIE POLICY

Cookies are small text files stored by your web browser (e.g. Internet Explorer, Safari, Firefox) on your computer, tablet or mobile phone to enable functionality on a website (for example storing user preferences).

How does this website use cookies?

This website uses a cookie to record whether a user's browser is enabled to use Javascript, a common website tool for providing interactivity such as the animation of page elements e.g. fading them in and out. The cookie is a simple yes/no flag, and contains no personal data.

This website also uses Google Analytics. Google Analytics is a tool that allows the behaviour of users on a website to be analysed, to help a website owner to provide the best user experience. Google Analytics generates cookies that identify whether you've visited the website before, which pages you visit etc. These cookies cannot be used to identify individuals; they are used for statistical purposes only and the data never shows any confidential information. The data itself is only visible to staff at Tincan and the relevant team at Google.

This website includes video/audio content from You Tube or Vimeo you should be aware that those sites may set cookies while you're using this website. For more details please consult the privacy policies of the services in question.

You can restrict or block the cookies used by the website through your browser settings but this will impact your user experience. The Help function within your browser should tell you how.

Alternatively, you can visit www.aboutcookies.org which provides directions on how to block cookies on all major browsers. This site also explains how you can delete cookies that have already been stored on your computer as well as general information about cookies.

You should be aware though that restricting cookies may impact on the functionality of the websites you visit.
